KELVIN KYERE

Software Developer | Full-Stack & Backend Development

Tema, Ghana | +233 24 618 5814 | kelvinkwasikyere5@gmail.com

Portfolio | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Software developer with 4+ years of experience building responsive websites and web applications, with hands-on work across frontend interfaces, backend APIs, databases, and deployment. Skilled in JavaScript, TypeScript, React, Next.js, Node.js, and PostgreSQL. Comfortable translating business requirements into practical software solutions and collaborating from development through delivery.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, SQL, Dart, C#, HTML, CSS

Frontend & Mobile: React, Next.js, Flutter, Tailwind CSS, WordPress

Backend & Databases: Node.js, Express.js, REST APIs, PostgreSQL, Prisma ORM

Tools & Platforms: Git, GitHub, Postman, Docker, Railway, Vercel, Figma

PROFESSIONAL EXPERIENCE

Software Development Intern | Association of African Universities (AAU) Oct 2026 – Present

- Working with the software department and gaining practical exposure to software development and team workflows.

Software & Web Developer | BB Deco & Catering Training Centre 2024 – 2026

- Developed and launched a responsive website presenting the school's programmes, admissions information, and institutional content.
- Worked on an online admissions platform covering applicant information, payment integration, administrative review, and student records.

Freelance Web Developer | Self-Employed 2023 – Present

- Designed, built, and maintained responsive websites for businesses and organisations, using WordPress and modern web technologies.
- Managed project requirements, interface implementation, content updates, troubleshooting, and website deployment.

Game Development Intern | Leti Arts Jul – Sep 2022

- Supported frontend website updates and gained practical experience with Unity-based game development.
- Tested game functionality and usability, reporting defects and opportunities to improve the user experience.

SELECTED PROJECTS

AEGIS — Consumer Alert & Verification System Flutter · Next.js · Node.js · PostgreSQL

- Developed tools to help users assess suspicious phone numbers, sellers, products, and offers before transactions.
- Built reporting and review workflows to collect community submissions and surface consumer alerts.

BB Deco Website & Admissions Platform Next.js · Node.js · PostgreSQL

- Created a responsive institutional website and developed admissions workflows for applicant intake, payment tracking, review, and student management.

EDUCATION

BSc Information Technology Management October 2023

University of Professional Studies, Accra
