## PROFESSIONAL SUMMARY

Information Technology Management student and software developer with over 2 years of hands-on experience building full-stack web and mobile systems for education, property management, and consumer safety. Skilled in translating operational needs into accessible, maintainable digital workflows.

## TECHNICAL SKILLS

**Programming:** JavaScript, TypeScript, C#, Dart, SQL, HTML5, CSS3

**Frontend:** React, Next.js, Flutter, Tailwind CSS, WordPress

**Backend & Data:** Node.js, Express.js, REST APIs, PostgreSQL, Prisma ORM

**Tools & Platforms:** Git, GitHub, Postman, Docker, Railway, Vercel, Figma, Unity

## EXPERIENCE

**Software & Web Developer** | *BB Deco & Catering Training Centre*

2024 - 2026

- Designed and launched the school's responsive website, strengthening its online presence and improving access to programme and admissions information.
- Engineered an end-to-end admissions workflow covering application intake, payment confirmation, applicant review, approvals, and student record creation.

**Freelance Web Developer** | *Self-Employed*

2023 - Present

- Delivered responsive websites for businesses and organisations using WordPress and modern web technologies, from requirements gathering through deployment.
- Created cohesive brand assets, including logos, promotional flyers, social media graphics, and web visuals, to support clients' digital presence.

**Game Development Intern** | *Leti Arts*

July 2022 - Sep 2022

- Applied Unity fundamentals in practical game-development activities and supported frontend website updates.
- Tested games for defects and usability issues, identifying opportunities to improve stability and the player experience.

## KEY PROJECTS

**Kasvin Homes Property Management System** | *Next.js, Node.js, Express.js, PostgreSQL, Prisma*

- Built centralised workflows for reservations, payments, expenses, housekeeping, maintenance, and simplified financial reporting.
- Developed a customer-facing direct-booking experience and structured the platform for future integrations with external booking channels.

**AEGIS Consumer Alert & Verification System** | *Final Year Project | Flutter, Next.js, Node.js, PostgreSQL*

- Developed verification tools that help users assess suspicious phone numbers, sellers, products, and offers before completing transactions.
- Implemented a community reporting and review workflow that turns submitted scam reports into verified public alerts.

**BB Deco Admissions Management System & Website** | *Next.js, Node.js, PostgreSQL, WordPress*

- Built an online admissions system to organise applications, payment confirmations, reviews, approvals, and student records.
- Delivered a responsive school website that improved access to programme information, admissions guidance, and institutional updates.

## EDUCATION

**Bachelor of Science in Information Technology Management**

Expected 2026

*University of Professional Studies, Accra*

## PROFESSIONAL STRENGTHS

Problem Solving | Communication | Teamwork | Adaptability | Time Management | Attention to Detail
